Frequently Asked Questions

> **Where can I use the applicator?**
You can use the applicator on any surface.

> **Why is the applicator good for applying ceramic coatings?**
The extremely soft microsuede cover prevents scratches and guarantees even application.

> **Is the foam applicator better than a rigid applicator?**
Although this is a matter of the user's personal preference, the foam applicator can adapt to the curves of the car more easily, creating a more uniform layer.
